

INFANTS

Our Infant Program was designed to provide your baby with a nurturing, safe, loving, and secure environment. We have educated and experienced staff to provide excellent care and supervision for your infant. The teachers give individualized attention by showing affection and interest while singing, talking, holding and playing with your baby. We play peek-a-boo, pat-a-cake and other "baby" games. We focus on the development of your child's social and emotional, language, cognitive, and physical skills. Your child will have rattles, squeak toys, nesting cups, cuddly toys, balls, musical toys, fabric and soft books to enjoy in the Infant Room. We encourage parent feedback and welcome visits at anytime.
